Coal Strike Settlement Excited Little Interest.

BUT LITTLE GENERAL BUYING

Much of Misscuri Pacific Came from One of the Pools Which Has Been Active in Stock-Day Very Duil, With Few Sparmodic Raliles.

With Few Sparmodic Raises.

(By Associated Press.)

NEW YORK, Oct, Tl.—Trading in the stock market to-day was light in volume, very narrow and devoid of any noteworthy feature. The formal settlement of the coal sirke excited little interest. There was just a bare suggestion of activity at the opening but this was almost altogether due to moderate buying for account of the Western speculative contingent. The market soon became very dull and save for a few spasmodic railies continued so to the end. Missouri Pacific's unfavorable showing for August caused heavy selling with an extreme decline of 2 points. Much of the selling came from one of the pools that had been prominent in the stock. The other standard railway issues were comparatively neglected the greater part of the day, their places being taken by the minor industrials, such as American Hide and Leather, United States Rubber and a few others in the same class, all of which appeared to be subjected to manpulation. Operations throughout the day were almost altogether of a professional character, and at no time did the list reflect any public interest. These conditions were noticed by the monetary situation, money being very easy, but in light demand. The prevailing rate was 5½ per cent. Time money was again sightly easier, much of the day's loans being made for periods of from 4 to 6 months. Sterling exchange was firm around \$4.82.25, 4.82.25½44.82.254, of a cent from the export point, but nothing other than gossiphas yet been heard concerning god exports, Government 4's, amounting to about \$2.00.000 par value were bought by the sun Treasury to-day, making total local disbursements, including like a buil campaign. London was a seller on balance to the extent of about 15.000 shares. The more extensive declines for the day included Northwestern, 5%; St. Paul preferred, 4%; Wabash, 3; Lackawanna, 4; Canadian Pacific, 13s; Baltimore and Ohio. 1½; Norfolk and Western, 1¼ and Atchison, Pennsylvania, St. Pau, Union Pacific and Southern Pacific a point each. STOCK MARKET GOSSIP.

STOCK MARKET GOSSIP.

The stock market received the news that the strike had ended with complete indifference.

The market was dull when the news came, as if in a waiting mood, but when the ticker announced the decision to end the strike and resume work there was no appreciable change in prices.

This was the cue to the bears to make a raid, and, strange as it may seem, prices began to say soon after the giorious news for which the street had so long waited was received. The reason is plain—the news had been discounted—Wall Street discounts everything.

The point of attack yesterday was Miscouri Pacific, one reason for selling that stock being the decrease of £200,000 in the net earnings for August.

With the drop in Missouri Pacific the whole market sold off and prices were lowest at the close. It is plain that the large interests are disposed to discourage a buil movement at this time.

The money rate was easy, but foreign exchange is still high, and there is alarming talk of gold exports.

There was a coincident rise yesterday in Atlantic Coast Line and Louisville and Nashville, but the latter did not hole its gain.

Norfolk and Western was decidedly

pain. Norfolk and Western was decidedly weak, selling below 78 against 80½ a day or two ago.

There was some activity yesterday in American Can, and its friends believe that it will soon enjoy a substantial rise American Cotton Oil is also said to the said t

American Cotton on is also said to cheap at present prices.

One of the favorites with Richmonders just now is the Union Pacific convertible bond. It ought to sell much higher.

The New York banks expect to gain about \$20,000,000 from the Government bond purchases.

COTTON MARKET.

COTTON MARKET.

NEW YORK Oct. 21.—The cotton market opened steady with prices unchanged to 4 points lower in sympathy with heaviness in the Liverpool market and in keeping with the weather map from the belt. There was little or no public support in evidence, and the foreign business went almost exclusively to the bear side. However, light receipts at the ports and a small estimate of to-morrow's Houston receipts led to hasty covering later in the first hour, and there were indications that Wall Street was supporting the January option. The Southern spot cotton people took every advantage of a raise to \$5.5 for January to put out hedges, and pressure of this nature soon forced prices backward again. Commission houses soil scattering lines of winter months; otherwise outside business continued along hand-to-mouth lines. Predictions for a very bearish weekly crop weather report from New Orleans at mid-day and for an increase in receipts before the close of the week helped to weight down the late forenoon market. The bureau statement proved quite as favorable as expected, and prices continued to hover around the lowest figures of 5.0 m or mid-afternoon. Then there was a steady liquidation, and short selling movement under which prices slipped lower peg by per with the close barely steady and net 465 points lower. Total sales were estimated at 200,000 bales.

To begin with, the colliers Leonidas, Labanon and Brutus will leave Hampton Roads November 1st for the rendezvous near Culebra Island. The O.ymp a will escort them or will follow very closely, her work being to prepare safe anchor-ages for the numerous fleet which is together from three naval stations. She will place large buoys and anchorage tackle and mark out the channels. The naval tugs Fortune and Leyden will be assigned to assist in this work, and the Bankcroft, which is to be placed at San Juan as station ship for Captain Dun-lap, will be used wherever necessary. The converted yacht Wasp is assigned to duty as tender to the flagships and six coal barges are to be sent out from Norfo'k, and two from Pensacola. The European and South American Squadrons are or dered to rendezvous in the Gulf of Paria on the north coast of Venezuela, on November 25th. This will bring together Rear-Admira's Sumner and Crowinshield. and as the former is the senior, he will take command of the joint force. The orbined squadrons will then early in December engage in a search problem, similar in plan to that undertaken last sommer off the New England coast, but on a far larger scale.

HAS HIS PLANS

Dr. Hawthorne Being Advised by Citizens and Others-Not Alone in the Fight.

Interest in the campaign undertaken by the Rev. Dr. J. B. Hawthorne against public vice in Richmond increases as the time for the second meeting of the Board of Police Commissioners draws

Dr. Hawthorne was seen yesterday morning, but declined to discuss the case or to answer any questions put to him. He had nothing to say concerning his future intentions; neither would he make any statement concerning the meet-ing of the Police Board Monday. The session of the Board, he said, was understood to be secret, and it would be violation of good manners and honor to reveal what occurred during it. Hence apart from a remark to the effect that the meeting between him and the com-missioners was pleasant and respectful on all sides he could say nothing. MANY WITH HIM.

One thing, however, Dr. Hawthorne desired to have brought out. In the first place he said the fight he is beginning to make is not his fight alone Behind him are a great number of prominent citizens, and the ministers are a unit on the subject. Several of these citizens, including lawyers, he said, are his personal advisers in the campaign. In the second place Dr. Hawthorne In the second place Dr. Hawthorne wished to state that he was making no haphazard movement. His plans are well matured and as he himself says he "will go on a bee-line." There will be no side issues and nothing else which would operate to attract attention from the main object or bring the movement into discredit.
